

## Call for Stories

Jun 16, 2020

During this unprecedented time, FirstEnergy employees remain committed to taking care of our families, coworkers and those in our communities while keeping the lights on. Many of you have gone above and beyond to help those in need – and we'd like to hear about it.

If you or your coworker has helped someone during the pandemic, let us know. Your story could help lift both hearts and spirits if featured on *FirstEnergy Today*.
